

CENTRE FOR RELIABILITY

STQC Directorate, Government of India, Chennai 41

Three day Online course

ON

DESIGN RELIABILITY ENGINEERING TECHNIQUES

COURSE OVERVIEW

Quality and Reliability of a product or a service is essential for the survival of any Organisation. Every organization is striving hard to continuously improve the quality and reliability of their products and in-turn their customer base. There is a strong need for a workforce, proficient in the principles and practices of Design Reliability Engineering in every organization in order to create a brand image for the product through designing for reliability. After attending this course you will be able to achieve the Design Reliability goals set by the organization for various projects.

COURSE SCHEDULE

Date / Day	Session - 1	Session - 2
Day 1	Reliability Engineering – An Overview	Reliability Prediction
	10.15 to 12.45 hrs (IST)	14.00 to 16.30 hrs (IST)
Day 2	Reliability Statistics, Distributions & Parameter Estimation Methods	Redundancy Techniques & System Reliability Modelling
	10.15 to 12.45 hrs (IST)	14.00 to 16.30 hrs (IST)
Day 3	Failure Modes, Effects and Criticality Analysis	Fault Tree Analysis
	10.15 to 12.45 hrs (IST)	14.00 to 15.30 hrs (IST)
		Online Examination (Objective type) & summing up - Closure
		15.30 to 16.30 hrs (IST)

COURSE FEES:

- **Mode of Payment:** Rs. 2,36,000/- (Rs. 2,00,000 Plus 18% GST of Rs. 36,000/-) for 20 participants (for Lecture, Courseware, and Certificate of Completion)
* Rs. 11,800 (Rs. 10,000 Plus 18% GST of Rs. 1,800/-) for additional participant.
- Can be paid through Bharat Kosh in the first instance. In case it fails, payment can be made by way of NEFT/EFT/RTGS funds transfer. Bharat Kosh payment procedure is attached.
- **Account No.:**801020910000001 **Beneficiary's Name:** CENTRE FOR RELIABILITY (CFR0, **IFSC:** BKID0008010
BANK: BANK OF INDIA, ADYAR (BRANCH CODE: 8010), **A/C TYPE:** CURRENT, **GSTIN:** 33AAAGC0894D1ZV and **SAC Code is 998349**

IMPORTANT NOTICE

Centre For Reliability, Chennai, being a Government of India organisation, **NO INCOME TAX** shall be deducted at source for any payment made to it in terms of section 196 of IT Act 1961.

ABOUT CFR

Centre for Reliability (CFR), India has been established by the Government of India in the year 1982 to facilitate improved reliability of Indian Electronics & Information Technology products. CFR strives to compliment and supplement the efforts of the Indian Industries to deliver world-class products and services. This is achieved by providing state-of-the-art services in the field of

- **A - Availability**
- **R - Reliability**
- **M - Maintainability**
- **S – Safety**

SPECIALIZED SERVICES OFFERED AT CFR

In the liberalized global market scenario, Indian industries have to compete with high reliability products from all over the world. Cosmetic reliability touch may lead to considerable loss in the confidence on the products amongst customers leading to loss of revenue and reputation. CFR renders the following services to build products of high reliability

- **Reliability Prediction**
- **Failure Mode Effects and Criticality analysis**
- **Fault tree analysis**
- **Reliability Testing (HALT and HASS)**
- **Field Failure Data Analysis**
- **Training and Certification of Industrial Employees in the field of Reliability Engineering**
- **Reliability Determination/Demonstration Testing (RDT)**
- **Quantitative Accelerated Reliability Testing**
